### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

#### **a) In the Title**

In the title: After, "Method", insert, --Forming a Resist Pattern, a Film Over the Resist, and Reflowing the Resist--

### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: in claim 1, lines 4-11, forming a film over the resist, spatially define sidewall surfaces of the resist pattern, reflowing the resist using the film to restrict the resist, removing the film, can not be found in the prior art of record. The prior art of record fails to teach, in combination, the process features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
